High Level Talents Recruitment

Guangdong University of Technology (GDUT), located in Guangzhou, a beautiful city in southern China, is a key multi-disciplinary university of Guangdong Province with a history of over 50 years. With the advantage of bordering on Hong Kong and the benefits of Guangdong's prosperous economic development, the university's research and competitive power has been remarkably improved in recent years and the University has become a key educational and research institution in Guangdong province in Southern China.

School of Management, GDUT, was instituted to offer a broad range of business degree programs, scientific research, and enterprise service. Today, School of Management, GDUT, is regarded as an emerging business education institution, with "High-level construction school" quality marks, and is a influential institutions throughout Southern China to be conferred the Provincial Key Discipline for Business Administration and the Provincial Key Discipline for Management Science and Engineering. The school is divided into five departments – business administration, management science and engineering, business management, accounting, and public management, and with a combined total of 134 full-time faculty members, 18 professors, 52 associate professors, and 64 assistant professors. The school currently offers 11 bachelor's degrees (business administration, human resource management, management science, information management and system, electronic commerce, marketing, logistics management, accounting, financial management, tourism management and land resource management), 5 academic master's degrees (business administration, management science and engineering, technology economy and management, land resource management and tourism management), 4 professional master's degrees (MBA, MPAcc, MPM, MLE etc.), and 2 doctoral degrees (management science and engineering, industrial enterprise management). Over the course of the School's development, the school has taken pride in its mission – to grow up with the development of economy in Guangdong, and to make contribution for the development of economy in Guangdong.

In order to realize the aim of leap-forward development, School of Management, GDUT, continue to implement the high-level talents recruitment programs as follows:
